

How To Use

Chill Stick

Please review this information prior to using the Chill Stick as improper use could be damaging to your Beer Tube!

1

The Chill Stick is filled with a non-toxic, re-freezable gel and may be used with any style of Beer Tube.

The Chill Stick can be used with any beverage, simply be sure that it is cleaned after each use.

Place the Chill Stick in a freezer prior to use for optimum cooling.

The Chill Stick should be re-frozen after each use.

2

Fill the tube first, then add the Chill Stick.

Simply place the Chill Stick inside the full Beer Tube by sliding it down the inside of the tube.

It is best to hold the tube at a slight angle when inserting the Chill Stick, this will allow it to slide gently down and avoid damage to the tube or Chill Stick and/or excess foam.

To clean, simply wash the Chill Stick with soap & water, rinse and dry before placing in the freezer.

Note: Be careful when placing the Chill Stick into the tube, slide the Chill Stick gently down the inside of the full tube to avoid damage and/or excess foam.
